The National Weather Service will train new or veteran spotters, including interested citizens, amateur radio, CERT, citizen corps, and law enforcement, fire, transportation and public works staff, on how to look for and report significant event-driven weather events. Training includes video demonstrations. Spotters are needed, particularly in the rural parts of Island County, as well as those who have weather instrumentation, such as an anemometer.

If planning to attend this spotter training session, please RSVP so an appropriate number of handout materials can be on hand. Class capacity is 36, so sign up early. We look forward to seeing you at this or other Skywarn Spotter training sessions, and receiving your hazardous weather reports.

Drive to Coupeville turn north at the intersection of Main St. and SR 20. Continue on Main past hospital to intersection of Main and 6 N.E. Turn right onto 6th NE and then immediately right into the parking lot on the right. Look for Hearing Room sign and stairs to the basement doorway. The Commissioners Hearing Room is in the basement
